

The new degree of comfort.®

Air | Air Handlers
RHMV

COMFORTABLY

QUIET AND EFFICIENT

Designed with maximum energy efficiency and quiet operation, the Rheem® EcoNet® Enabled High Efficiency Modulating RHMV Air Handler gives you a higher level of comfort, while keeping your utility bills low. Now that feels comfy.

Reduce Energy Bills

Reducing your monthly energy bills is easier than ever because the heart of the Rheem RHMV Air Handler is the high-efficiency, constant CFM, variable-speed blower motor which modulates the airflow based on cooling demand for enhanced SEER performance.

Quiet & Efficient

The sturdy design of our air handler provides excellent thermal and sound insulation, which means you get quiet and efficient comfort.

Smart Controls & Alerts

Innovative technology sends you important alerts and reminders to keep your system working at its best. Plus, it's easy to adjust your comfort settings from home or away¹.

Our Philosophy of Innovation

We meticulously evaluated every detail of this product from every angle, considering the work that goes into installing and servicing our products, as well as how we can deliver the very best homeowner experience. And then we take it a step further. That's 360°+1. And that's why you can count on your air handler to bring you and your family years of comfort.

The Rheem® RHMV Air Handler is designed to operate with the EcoNet® Smart Thermostat. This easy-to-use thermostat optimizes system performance and includes great features like:

- Simple scheduling and one-touch energy savings
- Remote access via the EcoNet App
- Important equipment alerts sent directly to your phone or email
- Convenient voice control – just ask “Alexa, make home cooler”²

EcoNet Smart Thermostat

Energy Savings

The heart of an air handler is the blower motor. That's why Rheem RHMV Air Handlers feature a high-efficiency, constant CFM, variable-speed motor with modulating airflow. When the unit is matched with a two-stage or variable-speed air conditioner or heat pump, it is able to run at a lower speed the majority of the time. This provides even temperatures so there is no need to continuously adjust your thermostat, reducing your energy usage.

Humidity Control

An air handler will help manage humidity levels in the home, improving your comfort and helping you save money on energy bills.

Efficient Heating & Cooling

The **1** factory-installed indoor aluminum cooling coil is the key component for your air handler. The coil is essential to humidity control and improved system performance, and the high-quality standards used in manufacturing ensures a long-lasting, dependable performance.

Quiet Operation

The Rheem RHMV Air Handler is designed with a **2** sturdy steel cabinet with **3** 1" of foil-faced insulation, offering excellent thermal and sound insulation.

Rheem Quality

The air handler features a lanced fin design for maximum performance and increased efficiency. A high-grade condensate drain pan keeps the unit operating smoothly, especially when the weather heats up. And the corrosion-resistant aluminum endplates keep your unit looking as good as it runs.

Benefits At-A-Glance

Motor:
Constant CFM Variable Speed
Modulating Airflow

Evaporator Coil:
All-Aluminum

Limited Warranty³:
Parts—10 years
